

Invest in impact with Rikx

The certain investment in visible impact.

Rikx

Rikx: the innovative platform for impact

Social Value obligation or CSR ambitions? Through the Rikx platform, you invest in the most impactful social projects of today. Under the guidance of dedicated social entrepreneurs, people with support needs will get back on their way to a paid job (in your industry), education, or meaningful daily activities. And even better: a good life. Thanks to your support.

- Launched in the Municipality of Rotterdam
- Validated by Owen Consultancy
- Awarded by the Bloomberg Foundation

With Rikx, you will get the greatest impact from your investment

The Rikx methodology is unique and guarantees that your investment makes an impact. You support projects that have been evaluated and valued for their impact by experts in advance, monitored during the process, and ultimately assessed for their added value. This impact value is encrypted in 'Rikx' as a social currency. For the greatest tangible, measurable and visible impact on people who need and deserve it. With a CSRD report as proof for you.

"I wanted a different life, but didn't know how. Then the Beroepentuin (Career Garden) came, which found investors through Rikx. They trusted me: an Antillean detainee who looks like a criminal. They saved my life."

Sydney Junny Jantji (43)

How it works

The Rikx calculation method predicts the impact of each project investment in advance and then also monitors how the actual impact turns out.

1. Invest

Choose your favourite(s) from the projects with the greatest impact and decide the amount.

2. Make a difference

Your investment helps people with support needs on their way to work, education, and a better life.

3. Notice the difference

You receive a Rikx certificate, impact label, CSRD report, and insight into the impact value achieved through your support.

"Making maximum impact works very well through Rikx. Rikx is a quality standard; we can trust that our funding is well placed. I wish every region had a Rikx!"

Enno Gerdes,
Director Rebel Economics & Policy

"I think it's brilliant that Rikx expresses the impact of projects in value, an incredibly important innovation. As an investor, you already know in advance that the project delivers more value to society than it costs. In this way, Rikx serves as a catalyst in the impact economy."

Tim Versnel, former Alderman for Work & Income at Gemeente Rotterdam

Rikx Certificate

Stichting Rikx hereby confirms the following investment

Purchased by

Do good Inc.

Purchased with

Project 1

Number of Rikx At the value of

123

€1234

By purchasing Rikx, you have contributed to the realisation of projects focused on people who are distanced from the labor market. The value of the purchased Rikx can be deducted from your Social Return obligation in consultation with WSPR.

Rikx Ingereende impact

What social investing through Rikx delivers

- You invest in projects where the expected impact has been determined in advance and where implementation is monitored.
- You contribute to a strong, social environment where everyone can participate.
- You help people (re)connect with work, diplomas, internships, and skills.
- Together we reduce loneliness, poverty, and debt.
- You position yourself as an organization that bears social responsibility (CSR) and communicate that to customers, partners, and employees.
- You receive proof in the form of a Rikx certificate, impact label and CSRD report.
- You prepare for future ESG/CSRD standards.

These and other investors are already making an impact with Rikx
